

Travelers Tuition Finance Announces Launch of Crelogix for Robust Loan Process Management

Vancouver, BC, August 30, 2007 -- Travelers Acceptance Corporation has announced the launch of its proprietary system, "Crelogix". Crelogix is a web based loan application system for submission, adjudication and document creation for use by partnered educators in the private Career College and K-12 supplemental education industries in Canada.

Travelers developed the Crelogix system to simplify and streamline its support for their education partners as they help meet the tuition needs of their students and their families. The robust loan platform provides a real time system to facilitate on-the-spot financing for students who want an easy to budget means to complete their education and training. The Travelers Crelogix system eliminates redundant paperwork, pre-approval transmission of documentation, and allows real time loan status and approvals, while providing schools with the ability to track and manage accounts online, 24/7. The convenient system promises to greatly reduce administration time for partner schools.

Authorized Tuition Finance partners appreciate having an alternative funding partner so they may increase enrolment ratios, have a higher commitment to completion, increase profits and the advantage of maximized facilities and resources with full capacity sessions.

Education service providers interested in registering for this industry leading new funding service can contact Tanya Meikle at Travelers Acceptance at 1-800-667-6400 (extension 2402).
