

## Vice President Accounting & Controller

Crelogix Credit Group is 35 year old company that has undergone a leadership and business transformation in the past 7 years repositioning the company today as a fast-growing ( 10 fold growth since 2004) financier providing over 6,000 businesses across Canada with consumer loan funding, servicing, collections and asset recovery services.

### Position Summary

With an ever more ambitious growth trajectory for the next 5 years the company seeks an experienced Chartered Accountant to be responsible for development and execution of the accounting and financial reporting function of the group with the goal to increase the relevance, accuracy, timeliness and completeness of its accounting and financial reporting information.

The initial focus of the position will be to develop and implement a winning plan and gain Senior Managements approval of the future direction of the Accounting and Financial Reporting Function of the group and within 10 months deliver meaningful results for all participating stakeholders.

The overall goal is to establish and position the company for its initial public offering over the next 4 + years as an industry leader, achieving significant, profitable, predictable, scalable annual growth.

### Success Factors

- You will be challenged to Leads significant functional area of the group.
- Participate in the creation and execution of our strategies and develop business plan / budgets
- You will in the First 60 days become responsible for:
  - Ensuring that key processes are operating efficiently, effectively and meeting the needs of key internal and external stakeholders
  - Providing financial expertise and counsel to business management
- By the end of your twelfth month you will have executed flawlessly and built a foundation for future growth of the function.

Reporting directly to the President & Chief Executive Officer, you are a special individual who is motivated by an entrepreneurial environment that rewards and recognizes your personal achievements, contributions and competency with fun, ongoing learning, status, and an above average performance based income.
